

Meritor Part

Meritor Part - The Meritor Company is a leading international dealer established upon one hundred years of custom of quality and service. Meritor concentrates on integrated systems together with different modules and components to the original machine makers and aftermarket equipment in the industrial and transportation sectors.

Meritor prides itself in the company's unique energy and believes that this particular energy contributes to their competitive advantage in the global operations. The company values all their customers and would like to guarantee their success while anticipating their various needs. Meritor starts with a tradition that values diversity of individuals and their broad thought processes. Operating in 19 countries and hiring more than eleven thousand two hundred individuals, Meritor encourages collaboration and innovation amongst a team of knowledgeable experts.

By only hiring future focused staff, Meritor strongly thinks these top-caliber people would be able to quickly get used to to changing environments and demonstrate the commitment and performance needed to attain results in the competitive materials handling market. The business empowers their teams to make sound business decisions to be able to improve the overall success of the business. In return, Meritor offers all their workers different opportunities for personal and professional development.

The Advanced Engineering team is on the forefront of components and system engineering. This includes drivelines, axles, braking and suspension systems utilized for heavy duty and medium trucks, trailers, off-highway vehicles, buses and military vehicles. The Meritor Advanced Engineering team is growing. They opened a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives which represent the entire Asia Pacific region. This team is likewise responsible for supporting the needs of their worldwide engineering personnel.

The Quality team at Meritor is a dynamic and customer-focused group who is committed to ensuring optimum growth at their production plants and aftermarket distribution facilities which are located on 5 continents and in 19 nations.

The supplier development network is specially located to support new business growth. Regional teams are supported by global centralized specialties, initiatives and quality systems in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program encourages a data-driven, fact-based method to decision making within each and every aspect of the business. The DFSS or Design for Six Sigma ensures product reliability within each region. The team is even included transactional Green Belts who utilize Six Sigma tools to business techniques and apply lean methods.
