

## Utility Bucket

Utility Buckets - "Slip on the forks" attachment buckets or otherwise called Universal Fit buckets can be used with any design or model of extendable reach lift truck. If your unit can't be matched with a quick-tach unit, another new or second-hand universal fit bucket could be located in its place. Regular universal lift truck buckets connect to blades which are up to 6" wide and are 48" long. Bigger fork pockets could be ordered via an account executive upon request.

As universal fit forklift buckets slip onto the blades directly, they stay on the machine and are much less susceptible to destruction. These buckets are even 50 percent deeper compared to the quick-tach bucket models. This extra space makes them ideal for lifting irregular shaped loads such as elevating roof gravel, moving large debris piles, broken up concrete, backfilling behind walls and tearing off roof trash.

### Quick-Tach Buckets

Furthermore, made as attachments utilized for extendable-reach lift trucks, Quick-Tach buckets, are made to allow the placement of materials far beyond the normal reach of the loader. A hardened beveled cutting blade on both sides and on the leading edge reinforces strength, resistance to wear and provides supreme durability. Quick-Tach lift truck buckets are enhanced by scuff bars along the bottom of the unit that protect it from scrapes.

Quick-Tach lift truck buckets could be used to substitute the carriage and blades that weigh between one hundred to seven hundred pounds. When set up, these buckets free up more of the unit's cargo capacity, enabling it to deal with heavier and larger things. The Quick-Tach can pour items around 1.5 feet higher because of the shorter depth of its bucket. These buckets are designed in a custom fashion to be able to meet all the specs of certain models and makes of forklifts. It is essential to confer with a construction equipment specialist so as to find the custom-made Quick-Tach bucket solution for your requirements.

Lift truck bucket attachments are exceptional for ground level work on construction sites. They are normally intended for moving snow in northern areas, and sand and gravel loading. Job location clean-up is one more function the lift truck bucket carries out well. The numerous uses the bucket can do saves the company more money and time because it does have to absolutely switch tools or machinery and this can help prevent running into overtime.
